

Report of the Conference of the Parties to the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade on the work of its fourth meeting (UNEP/FAO/RC/COP.4/24)

(Extract)

RC-4/11: Enhancing cooperation and coordination among the Basel, Rotterdam and Stockholm conventions

The Conference of the Parties,

Recalling decision SC-2/15 adopted by the Conference of the Parties of the Stockholm Convention on Persistent Organic Pollutants at its second meeting, decision RC-3/8 adopted by the Conference of the Parties to the Rotterdam Convention on the Prior Informed Consent Procedure for Certain Hazardous Chemicals and Pesticides in International Trade at its third meeting and decision VIII/8 adopted by the Conference of the Parties to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal at its eighth meeting, by which the conferences of the Parties established the ad hoc joint working group on enhancing cooperation and coordination among the Basel, Rotterdam and Stockholm Conventions and mandated it to prepare joint recommendations on enhancing cooperation and coordination among the three conventions at the administrative and programmatic levels,

Mindful of the legal autonomy of each of the three conventions,

Recognizing the broad scope of the Rotterdam Convention,

Welcoming the ongoing commitment of all Parties to ensuring the implementation of the full breadth of the Rotterdam Convention,

Looking forward to the follow-up on the development of managerial issues arising through closer cooperation between the three conventions,

Noting United Nations Environment Programme Governing Council decision SS.VII/1 on international environmental governance, the Informal Consultative Process on the Institutional Framework for the United Nations' Environmental Activities and the 2005 World Summit Outcome calling for reduced fragmentation on environmental issues,

Recognizing that the overarching goal of the three conventions is the protection of human health and the environment for the promotion of sustainable development and that the objective of enhanced coordination and cooperation among the three conventions is to contribute to the achievement of that goal,

Convinced that actions taken to enhance coordination and cooperation should be aimed at strengthening implementation of the three conventions at the national, regional and global levels, promoting coherent policy guidance, enhancing efficiency in the provision of support to Parties with a view to reducing their administrative burden and maximizing the effective and efficient use of resources at all levels,

Noting that processes for enhancing cooperation and coordination are driven by Parties, should take into account global concerns and should respond to the specific needs of developing countries and countries with economies in transition,

Believing that institutional structures should be defined by functions that are identified before such structures are established,

Welcoming the recommendation of the ad hoc joint working group on enhancing cooperation and coordination among the Basel, Rotterdam and Stockholm conventions,

1. *Takes note* of the decision of the Conference of the Parties to the Basel Convention at its ninth meeting to adopt the recommendation of the ad hoc joint working group on enhancement of coordination and cooperation among the Basel, Rotterdam and Stockholm conventions;

(a) Activities to implement the Basel, Rotterdam and the Stockholm Conventions, in particular activities of the focal points and designated national authorities for the three conventions, the Strategic Approach to International Chemicals Management and other relevant policy frameworks, as appropriate;

(b) Preparation for convention meetings;

2. *Invites* Parties to provide, through the joint information service referred to in section II, paragraph 4, below, models of such coordination mechanisms as well as examples of good coordination practices from countries;

3. *Recommends* that Parties, when implementing the three conventions, including through capacity-building and technical assistance, ensure close cooperation and coordination among relevant sectors, ministries or programmes at the national level with respect to, among other things, the following:

(a) Protection of human health and the environment from the harmful impacts or adverse effects of hazardous chemicals and wastes;

(b) Prevention of accidents and emergency response in case of accidents;

(c) Combating illegal traffic and trade in hazardous chemicals and wastes;

trade, customs (for example through the Green Customs Initiative), transport, public health, labour, environment, agriculture and industry;

This work should promote the sound management of chemicals throughout their lifecycles and of hazardous wastes for sustainable development as well as for the protection of human health and the environment;

16. *Recommends* that a limited number of regional “focal centres”, with the responsibility to facilitate coordinated activities in the regions covering both chemicals and waste management, be selected from among the existing regional centres of the Basel and Stockholm Conventions. These focal centres will be designated following regional agreement and in accordance with the relevant procedural provisions of the respective conventions. These focal centres should:

(a) Ensure that the regional centres deliver their work in accordance with defined priorities and serve as an entry point for countries needing assistance or guidance on which centre in a region could provide assistance for a specific purpose;
